

# North Herts College Sports Hall

Hitchin, Hertfordshire

### **North Herts College, Sports Hall**

DLA Town Planning acted as agent for both North Herts College and CALA Homes (North Home Counties) taking proposals through pre-application engagement to the grant of planning permission back in 2021. The permission allows for 116 new homes, along with a state-of-the-art sports facility including a 3G pitch.

Following this success, DLA, along with the consultant team for this project were invited to the grand opening of the North Herts College Sports Hub earlier this month. The Consultant team made up of; Annabel Lait, Richard Grenville from Saunders, Andy Trowbridge from Ardent, Neil Farnsworth, and Jim Brunt from Cala, and Mike Lake and Victoria Davies from DLA Town Planning, were joined by Kit Davies and Robert Dale from North Herts College, along with Bim Afolami, the MP for Hitchin and Harpenden for this cutting of the ribbon event.

These state-of-the-art facilities will benefit both students of North Herts College and the local community, ensuring both competitive sports and sports for leisure are accommodated. Echoing Kit Davies' comments to The Comet back in 2021 when work began on the project, the opening of these facilities represents North Herts College's continued investment in the local community and beyond.
